Infection Control & Sterilisation

Certificate III in Sterilisation Services (HLT37015)

Program Code	Start Date	Program Length	Campus	Study Mode	Contact
HLT37015	21 October 2020 (Intake 4)	14 months incl., clinical placement	Mayfield Education Hawthorn	Classes 1 day/fortnightly	(03) 9882 7644

This Nationally Recognised Certificate is an appropriate baseline qualification for personnel employed in sterilising facilities. It is suitable for staff involved in the preparation and sterilisation of reusable medical and surgical equipment or the preparation and sterilisation of textile packs for use in health care facilities. This training will equip you with the skills and knowledge to ensure compliance with the requirements of Australian Standards and provide safe, effective and efficient sterilising services. You will become thoroughly familiar with the concepts of microbiology, infection control, sterilising theory and practices. You will gain an understanding of the principles and practice of sterilisation in a health workplace. You will develop a comprehensive understanding of your role in workplace effectiveness including your ethical, legal and financial responsibilities as an employee.

Certificate IV in Sterilisation Services (HLT47015)

Program Code	Start Date	Program Length	Campus	Study Mode	Contact
HLT47015	21 October 2020 (Intake 4)	14-16 months	Mayfield Education Hawthorn	Classes 1 day/fortnightly	(03) 9882 7644

This qualification reflects the role of a team leader or senior technician in the sterilisation or reprocessing area of an acute hospital. This worker is responsible for the maintenance of quality requirements and monitoring of technical sterilisation functions of medical equipment; particularly items used in Operating Theatre.

HLTSTE007 & HLTSTE008 Upgrade for current Technicians

Program Code	Start Date	Program Length	Campus	Study Mode	Contact
HLTSTE007 & HLTSTE008	3 March 2020	4-day program over 8 weeks	Mayfield Education Hawthorn	onsite short course	(03) 9882 7644

This short course has been designed to provide nationally recognised and accredited units of competency to existing CSSD technicians. This unit will provide skills to the participants to enable them to comply with the Standard AS/NZS4187:2014: Reprocessing of Reusable Medical Devices in health Service organisations.

Storage, Handling and Transport of Sterile Stock–short course

Program Code	Start Date	Program Length	Campus	Study Mode	Contact
Storage, Handling and Transport of Sterile Stock	22 July 2020	Half Day	Mayfield Education Hawthorn	onsite short course	(03) 9882 7644

Do the storage, handling and transport of sterile items in your facility meet the requirements of Australian Standard AS/NZS 4187? Would you know if a sterile item had been contaminated? This course gives you the skills and understanding to implement the specific storage and transporting requirements under AS/NZS 4187 to prevent contamination of sterile items.

Introduction to Sterilising Services–short course

Program Code	Start Date	Program Length	Campus	Study Mode	Contact
Intro to Sterilising Services	14 October 2020	1 day	Mayfield Education Hawthorn	onsite short course	(03) 9882 7644

An ideal introductory course for newly employed sterilising services staff or anyone with responsibility for reprocessing reusable medical devices. This course is also suitable for people preparing to gain employment in a sterilising services environment.

Sterilisation and Disinfection Practice for Environmental Health Officers-short course

Program Code	Start Date	Program Length	Campus	Study Mode	Contact
Sterilisation and Disinfection Practice for EHO	22 April 2020	1 day	Mayfield Education Hawthorn	onsite short course	(03) 9882 7644

This program helps Environmental Health Officers understand Australian Standard AS/NZS 4815 and how it should be applied to skin penetration establishments. After completing the one day course you will understand infection control principles and the need for compliance to minimise the risk of infection. The course has a strong focus on how equipment should be cleaned and disinfected to eliminate the transmission of bacterial or blood borne

Infection Control & Sterilisation

infections, particularly Hepatitis C, Hepatitis B & HIV.

Disinfection and Sterilisation for Small Practices and Clinics-short course

Program Code	Start Date	Program Length	Campus	Study Mode	Contact
Disinfection and Sterilisation for Small Practices and Clinics	26 August 2020	1 day (9am-4pm)	Mayfield Education Hawthorn	onsite short course	(03) 9882 7644

Disinfection and sterilisation practices within small practices and clinics are covered by Australian Standard AS/NZS 4815. This program equips you with the skills and understanding to comply with this Standard. Recommended for those wanting to demonstrate compliance for accreditation purposes in small practices and clinics. An introductory session on micro-organisms, transmission of infection and the use of standard precautions sets the scene for applying AS/NZS 4815 in the workplace. Participants will discuss the appropriate physical layout of an area for dealing with reusable items that complies with the requirements and application of AS/NZS 4815.

Introduction to Infection Prevention and Control-short course

Program Code	Start Date	Program Length	Campus	Study Mode	Contact
Introduction to Infection Prevention & Control	TBA	2 days	Mayfield Education Hawthorn	onsite short course	(03) 9882 7644

The Infection Control Practitioner has responsibility for infection control practices over a broad range of areas within the health care setting. This short course is an introduction to the issues which confront the present day infection control practitioner. Many aspects of infection control covered in the course are applicable across a broad range of enterprises beyond health care. Since an infection control program is a requirement for accreditation for health care facilities, this is an ideal introductory course for staff with responsibility for preventing and controlling infection. This course provides a 'snap shot' of the longer certificate courses offered at Mayfield Education.

Advanced Sterilisation-short course

Program Code	Start Date	Program Length	Campus	Study Mode	Contact
Advanced St	10 June 2020	1 day	Mayfield	onsite short	(03) 9882 7644
