## Allied Health

### Certificate IV in Allied Health Assistance (HLT43015)

Program Code	Start Date	Program Length	Campus	Study Mode	Contact
HLT43015	24 September 2020	12 months with clinical placement	Mayfield Education Hawthorn	Classes 2 days each fortnight	(03) 9882 7644

Allied Health Assistants work directly with clients to implement allied health programs. They may work under the supervision of physiotherapists, dieticians, podiatrists, speech therapists and occupational therapists. Mayfield Education is the only training organisation offering Allied Health Assistant Certificate IV course in Australia that delivers physiotherapy, podiatry and occupational therapy specialisations.

### Allied Health Short Courses / CPD for Allied Health Assistants

Program Code	Start Date	Program Length	Campus	Study Mode	Contact
Allied Health Short Courses	23 October 2020	1 day onsite	Mayfield Education	Face-to-Face 9AM to 4PM	(03) 9882 7644

Allied Health Assistants work directly with clients to implement allied health programs and may work under the supervision of Allied Health professionals. Mayfield Education will be offering qualified Allied Health Assistants shorts courses in the following areas: Physiotherapy, Occupational Therapy, First Aid, Speech Pathology and Massage. These short courses would allow Allied Health Assistants to expand their treatment techniques and can be used as continuing professional development.

### Caring for the Feet – short course

Program Code	Start Date	Program Length	Campus	Study Mode	Contact
Caring for the Feet	1 February 2021	1 day onsite	Mayfield Education	Face-to-Face 9AM to 4PM	(03) 9882 7644

Problems with the feet may be the first signs of medical conditions such as arthritis, diabetes and nerve and circulatory disorders. All people may require assistance and referral from health professionals and carers in foot care in order to maintain good function and prevent foot problems. This course teaches safe and appropriate foot care techniques aimed at maintaining healthy foot function in all people. You will learn to identify high risk situations requiring referral to specialist podiatrists. This course does not allow people to work as podiatrists or podiatry assistants. This course does not enable participants to work independently in this area in the community. Please consult your workplace guidelines and policies in relation to the foot care that you are able to provide.
